

**Georgia Institute of Technology
Office of Government Relations**

2009 Legislative Priorities

- **\$43 million for the Construction of the G. Wayne Clough Undergraduate Learning Commons**—This centrally located 230,000 square foot facility will house all foundational science labs, technologically advanced classrooms, as well as advisement, tutoring and academic services for Georgia Tech's undergraduate student population.
- **\$114.7 million in Formula Funds**—This funding is based on credit hour enrollment growth and will be allocated among the 35 institutions in the University System. These are considered the vital, day-to-day operating funds.
- **\$70 million in Major Repair and Rehabilitation Funds**—These funds will help address critical infrastructure needs, such as roof replacement and asbestos abatement. Georgia Tech will receive a share of the total University System allocation.
